FOREWORD

Land records provide a valuable source of information for traditional family genealogy; this type of record has been used extensively as such by the author. While using these land records, it occurred to him that a compilation of these records in book form would provide not only a ready source of information for the traditional genealogist but that an account of the successive ownership, or "land genealogy", would in itself be of interest and provide a fix on the location of the place of residence of one's ancestor. "Land grants" were the primary source of land acquisition on the western frontier of Virginia in the early nineteenth century; hence the title of this book.

While the primary emphasis has been on the Dotson grants, many other contemporary surnames are mentioned in connection with common boundary lines, subsequent transfers by deed, and otherwise.

About the Author

He was born and reared on a farm near Petroleum, Ritchie County, West Virginia and attended Ritchie County schools. After graduating from then Cairo High School, he attended Glenville State and Bethany Colleges prior to military service in the Navy during World War II. His post-war education was continued at West Virginia University where he received a Ph. D. in the field of chemical engineering.

After thirty years with the General Electric Company in various engineering and management positions, he is retired and living in Danville, California. He has retained a keen interest in the history of his native West Virginia and ancestral ties associated therein.

He is a member of the Ritchie County Historical Society, Harrisville, West Virginia; the San Ramon Valley Historical Society and San Ramon Valley Genealogical Society, Danville, California.

Acknowledgements

Many sources of information were used in the preparation of this book and gratefully acknowledged; included are the family history libraries of the Church of Jesus Christ of Latter-day Saints in Oakland, California and Salt Lake City, Utah; Sutro Library in San Francisco California; County Clerks offices in Doddridge County at West Union, and Ritchie County at Harrisville, West Virginia; office of the State Auditor, and library of the West Virginia Archives and Cultural Center in Charleston. During the research for information for this book, the author visited all of the mentioned locations, conducted interviews with knowledgeable people and made photographic records.

The author's special thanks go to Barr Wilson, well known genealogist and historian of Pennsboro (Toll Gate), West Virginia, for his interest, endless supply of information, encouragement, suggestions, review and critique of a draft of this book.

How this Book was Prepared for Publication

"Desk-top publishing" is a term recently applied to a technique for the preparation of "camera-ready" material on a computer using the proper word-processing and graphics soft-ware. This book is an example, in which the author prepared the text, some graphics, and the final page lay-out on a Macintosh computer and a laser printer. Final printing of the "camera ready" sheets, and binding, were done by a commercial printer.

Introduction

Richard Dotson was one of the earliest settlers in the Greenwood area of present day (1987) Doddridge County. Hardesty (Hardesty's West Virginia Counties, Vol. 2 Doddridge, Marion, Upshur, Wetzel, p. 13, republished by JimComstock, Richwood, W. Va. 1973), writing in 1883, in his history of Doddridge County, Central District, stated:

“The first settler was Richard Dotson, who entered 600 acres of land, and in 1802 built his cabin near where Thomas Scott now resides. His earliest neighbors were James Scott, Nathan Davis, the Arnolds, Lottridges, Haltermans, Ruddecks and Fergusons. The first white child born in the district was Ruth Dotson, a daughter of Richard and Millie Dotson.....”

The primary objective of this writing was to locate this 600 acre entry and establish the location of Richard Dotson’s first cabin. Secondly, provide a description of all of his, and his descendants, subsequent land grants in this area for the use of any person interested in this information.

Richard Dotson was born in Frederick County, Virginia, in 1752 [Ref. Barr Wilson, Richard Dotson (1752-1847)]. As a young man he moved to the southwestern part of Pennsylvania, then under Virginia’s control, where he lived as a frontiersman until the end of the Revolutionary War. While there, he served in the Lord Dunmore campaign against the Indians, down the Ohio River and on to Chillicothe Ohio; while on this campaign he was undoubtedly introduced to this western section of Virginia where he later settled. He served during the Revolutionary War as a soldier defending the forts in the southwestern Pennsylvania area. At the conclusion of the War, he removed back to Frederick County; by this time Virginia had given up her claim, to Pennsylvania, for the disputed territory southwest of Pittsburgh to conform with the present extended Mason-Dixon line.

Shortly after 1800, Richard brought his family to the Greenwood area of present day Doddridge County, where he built his cabin on the six-hundred acres of land granted to him as an assignee of an Isaac Pryor and/or otherwise acquired from Pryor. His two older sons William and Emanuel were each given part of this tract where they established households of their own. As shown in the US Census of 1810, all three Dotsons (Richard, William and Emanuel) were enumerated separately as “head-of-household”, in what was then Wood County.

About 1820, Richard moved to Tyler County; he acquired land by deed and grant in the Hugle Run area, a few miles northeast "across the ridge" into what was then Tyler County (now Doddridge). His last wife Naomi, a widow of George Gregg(miller), had been willed a life-time interest in property at the JUG near Middlebourne; they may have resided there all or part of the period from 1820 until her death ca. 1826-27. William remained in the Greenwood area; Emanuel moved to an area of Arnold Creek then in Harrison County; both William and Emanuel acquired land by grants of their own. By 1830 Richard, who was getting up in years by then and again a widower, had moved in with one or another of his younger sons (Joseph in Tyler or Elisha in Wood County), with whom he was shown residing in the 1830 census; the 1840 US Census showed him, by name, as a Revolutionary War pensioner residing with his son James in Tyler County. The younger sons with whom Richard was associated in his land dealings after 1820 include Zachariah, Elisha, James, Joseph and Richard Jr. Richard died in 1847 and is buried in a marked grave in the Arnold Creek Cemetery in Doddridge County.

The foregoing brief narrative of Richard Dotson's life is presented by way of introduction and includes, as yet in this book, many unsubstantiated statements and conclusions. The remainder of this book is devoted principally to a recording of the land grants and deeds, and other pertinent information, on which these conclusions were based, and the proof of same.

After a section on the sequential formation, and re-formation of counties affecting this area, a listing of Richard Dotson's land grants and deeds is presented in chronological order along with Richard's disposition of these tracts; subsequent dispositions are included if known. In one case, the "Greenwood Lots", sequential land transfers have been traced down to the present owners in order to establish the location of Richard's first cabin "near where Thomas Scott now resides". Later sections are devoted to land grants of his two older sons William and Emanuel, whose early holdings meshed closely with Richard's; finally, a section is devoted to a general discussion of the information presented and the conclusions derived therefrom; maps, sketches and photos are included in this section. Transcripts of all Dotson land grants in this area have been included in the Appendix.

CHAPTER ONE

Land Grants and County Formations

LAND GRANTS

Land grants, or patents, are documents whereby ownership of a tract of land is conferred upon an individual by the government within whose boundaries the land is located. For lands found within the bounds of the present state of W. Va., these grants were made by Lord Fairfax prior to the creation of the Virginia Land Office; by the Commonwealth of Virginia; and by the State of West Virginia under its first Constitution. Subsequent to the formation of the State of West Virginia in 1863, transcripts were obtained of all of the grants made by Lord Fairfax and the Commonwealth of Virginia for land lying within the boundaries of the new state; these were filed in the office of the State Auditor in Charleston.

Sims Index

In 1951, an act of the West Virginia Legislature authorized the preparation of an index to these grants by the State Auditor, Edgar B. Sims. This index was published in 1952 as *Sims Index to Land Grants in West Virginia*. Copies are available for purchase in the State Auditor's office in Charleston. Microfilm copies of this index, as well as copies of the actual grants, are available in the genealogical library of the Church of Jesus Christ of Latter- Day Saints (Mormon) in Salt Lake City, Utah.

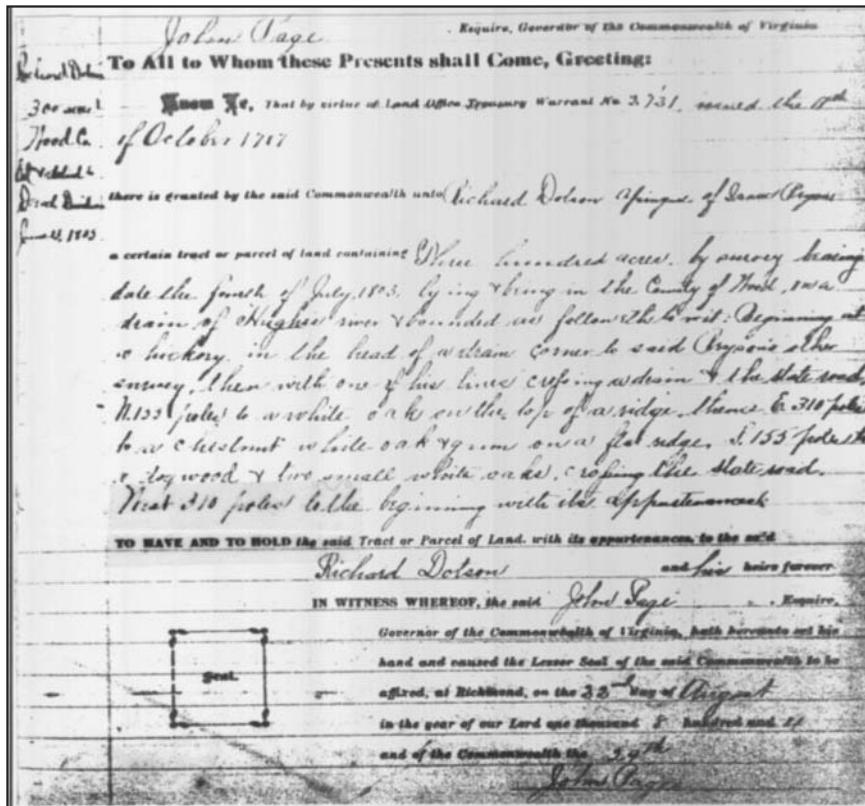

Grants by Commonwealth of Virginia

Except for one grant as noted, all of the Dotson grants were issued by the Commonwealth of Virginia. While some earlier large Virginia grants were made as compensation for military service, none of the Dotson grants appear to be for such. Rather it was a matter of who came first, had a survey made of the tract for establishment of the boundaries, then applied to the Virginia Land Office for a grant; on the basis of an approved Warrant, a grant was then issued by the governor of the Commonwealth. Transfer of ownership could and often was made through an "assignment" to a second or third party prior to or after issuance of the grant. As one might expect, the process of issuing land grants often became quite controversial and chaotic, sometimes requiring years of litigation and otherwise, for settlement of rights of ownership.

Grants Commonly assigned to Second or Third Parties

**Richard Dotson
First Grant in
Greenwood Area**

Richard Dotson's first grant was for land in the Greenwood area in present day Doddridge County, on Dotson Run, a branch of the North Fork of Hughes River; a copy of the transcript of this grant, as filed in the State Auditor's office in Charleston, is shown below.

COUNTY FORMATIONS AND BOUNDARY CHANGES

**Ref.: Edgar Sims
*Making a State***

His later land grants and those of his progeny, all lay within an approximate ten mile radius of his first land acquisitions. This area may be located on the Pennsboro and West Union quadrangles of the U S Geological Survey Maps (1961).

This small area, or parts of it, has lain in no less than six counties (Ohio, Harrison, Wood, Tyler, Ritchie and Doddridge) in the Commonwealth of Virginia and later (1863), within the three present day counties (Ritchie, Doddridge and Tyler) of the state of West Virginia. An understanding of the time sequence of boundary changes is essential to the finding and location of the Dotson land grants. A summary history of county formation and boundary changes involving this area follows (Ref; Sims, Edgar B. *Making a State*):

County of Augusta formed- encompassed all of present day W. Va. except eastern counties

1780 District of West Augusta - encompassed northern half of present W. Va. - counties of Augusta (1769) , Ohio Co.(1776), Monongalia (1776), and Yohoghania Co. Pa.(1776); area of interest in Ohio and Monongalia Counties

1780-1790 Harrison Co. formed in 1784 from Monongalia Co. Area of interest encompassed within Ohio and Harrison Counties in 1790.

1790-1800 Wood Co. formed in 1798 from Harrison Co. Area of interest encompassed within Wood, Ohio, and Harrison Counties, as shown in 1800 map..

CHAPTER TWO

Richard Dotson's Land Grants

**Grants and deeds of
acquisitions listed
chronologically-
followed by deeds of
disposition**

**First land acquired by
deed from Joseph
Spencer in 1801**

All of the land grants to Richard Dotson have been abstracted and included in this chapter; in addition, pertinent deeds showing subsequent disposition to others have also been included. Grants to his two older sons William and Emanuel have been abstracted in the two following chapters; land grants to all other Dotsons in the present day counties of Ritchie, Doddridge and Tyler have been abstracted and included in the appendix. The latter grants have been arranged by county in which the grants were made and indexed alphabetically by given name of the grantee. Original spelling has been retained as closely as possible even when incorrect or differing from present day use.

The listings here of Richard Dotson's land grants and deeds have been arranged chronologically by year of recordation of the document; this is followed by his disposition of that particular tract of land, and in some cases, subsequent transfers to later owners.

OWNERSHIP
CLAIM TO 300
ACRE WESTERN
TRACT BY HUGH
FERGUSON, 1815,
EPHRAIM BEE IN
1853**

In October of 1815, Hugh Ferguson commenced legal action aimed at acquiring title to this 300 acre western tract granted to Isaac Pryon, on the basis of a "title bond" he claimed to have been executed between him and Isaac Perine; his petition to the Wood County Court through his attorney in fact Levi Wells (Wood Co. Deeds Vol. 5, p.309) follows:

"Know all men by these presents that I Hugh Ferguson of the County of Warren in the State of Ohio have made constituted and appointed and by these presents doth he constitute and appoint Levi Wells of the County of Wood in the State of Virginia my true and lawful attorney for me and in my name place and stead to Petition the Court of the County aforesaid for a decree to obtain a Deed or title for a certain tract or parcel of land lying and being in the County aforesaid joining land of Richard Dotson in compliance of a title bond and other writing having reffERENCE thereunto now in the hands of said Richard Dotson who is hereby required to give up the same - said title bond was made and executed by and between me and Isaac Perine."

.....then follows a paragraph defining specific powers of attorney to Levi Wells.....

.....signed by Hugh Ferguson on 2 Oct. 1815 , and sealed in the Court of Common Pleas, Warren Co. Ohio.....presented to the March 1818 term of the County Court of Wood Co. Virginia and recorded.

**Two acres subdivided-
into lots-
now GREENWOOD**

A two acre portion of this tract was subdivided into eight or nine lots and sold by John Dotson in the town of Fairview or Grandview, now Greenwood, Doddridge County; these Greenwood lots will be traced in a subsequent separate section.

**BRICK HOUSE
PROPERTY**

The remainder of the 100 acre tract (excluding the two acres sold as lots) was sold by John Dotson, in combination with other lands he had acquired by grants (see appendix John Dotson 100 acres 18 Oct. 1835 and 289 acres 17 Oct. 1835) in the Dotson Run-Sugar Run area, known as the "Brick House Property"; first he sold a one-half interest to Ephraim Bee in 1859 (2, 11), then the remaining half interest in 1860 (2, 170) to the A. J. Smith Heirs. Only a portion of his 289 acre grant of 17 Oct. 1835 was sold as part of his Brick House Property (see plots in subsequent discussion section). Abstracts of these deeds follow:

Dotson, John and Mahala his wife to Ephraim Bee; 4, 11; 23 August 1859;..\$1750... grant...following described property, that is to say one half of all that certain tract or parcel of land lying in the county of Doddridge known as the Brick house property, and bounded..

Dotson, John and Mahalah his wife to A J Smith heirs 4, 170 ; 13 Nov 1860; ...heirs at law of Augustine J Smith.... Susan A O Donnell, wife of E H O Donnell, A J Smith Jr., Benjamen M Smith, D Boyd Smith, Robert J Smith, Ethelbert Smith, Mortimer W Smith, Lewis Smith and William T Smith..\$1750...

all of the following described tract, piece or parcel of land lying and being in the county of Doddridge on the waters of Sugar Camp Run a branch of the North Fork of Hughes river. that is to say one moiety of

a tract of three hundred and thirty acres of land situate upon the waters aforesaid, known as the Brick House property, the other moiety of which has heretofore been conveyed to Ephraim Bee by the said parties of the first part...warrant generally.... (no further description) delivered to E H O'Donnell Nov 21 1878.

Two subsequent deeds, with Ephraim Bee the grantor, concern this land sold by John Dotson to Ephraim Bee.

Bee, Ephraim, and wife to E. H. and Susan A. O'Donnell; 12, 100; 28 Nov. 1879; one undivided half of Brick House property (house and lot)

....for four hundred dollars...all their right title and interest in and to the certain Brick House and lot of ground on which the same stands situated in Greenwood in Doddridge County West Virginia being the same House and lot now occupied by said Edward H. O'Donnell and Susan A. O'Donnell and bounded as follows. Beginning at a drain east of said Brick House at the southern line of the land of the Rail Road Company; thence S12W 334 feet; thence N72W 12 poles (198 ft.); thence N12E 334 feet and thence S72E 12 poles to the beginning, the interest of the said Ephraim Bee in and to the said Brick House and lot herein intended to be granted is one undivided half part thereof and is granted with general warranty...

From the boundary description, it appears that this property was located north of the Northwestern Turnpike (now old US 50) on the property now (1987) occupied by the W. Va. State Dept. of Highways, Parcel 17-03.1. Bordering the railroad property on the north, it apparently did not extend southward all of the way to the Turnpike (boundaries did not call for Turnpike).

Another two acre parcel of the land acquired by Ephraim Bee from John Dotson in Greenwood is described in the following deed;
Bee, Ephraim and Mary to Rachel Jane Bee (their daughter-in-law); 6, 427; 8 May 1868;

For the love and affection I have for her I do give and bequeath to the said Rachel Jane Bee all that certain tract or parcel of land in the county of Doddridge on the waters of Dotsons Run and bounded as follows to wit; Beginning on the north side of the North Western turnpike Road thence running northern course with Buck Run Road to the line of the N. W. Va. R. R. thence with the line of said Rail Road to the line of Kelly & Dotson's Lots including a lot I formerly sold to Jacob Benegar but know(sic) belongs to me thence agreeable to town plot of Greenwood a southerly course with the Kelly & Dotson line to the Foreman lot to a lot I sold to A. G. Yeager thence to H. T. F. Davis and thence running with said Davis lot to the NorthWestern Turnpike thence running with said Road to Beginning supposed to contain two acres more or less being part of the same property I bot (sic) of John Dotson containing two acres more or less the said Ephraim Bee covenants that he will warrant generally the property hereby conveyed....

Note: Buck Run Road is now designated road number 50/2 and runs northward from old US 50 across the B&O RR to the Young Addition of Greenwood; this road lies immediately west of 1987 Parcel 18-29 belonging to G W and Pearl H Hill and on which the Greenwood Motel is located.

Two additional transfers of ownership of this parcel are presented, to confirm the location of the Dawson-Scott lots as presented in a subsequent section on "Greenwood Lots".

Bee, Rachel J and Wickliffe Bee, her husband, to C A Simpson, 10, 164; 14 Apr. 1876; ..in consideration of twenty five hundred dollars in hand paid...tract situated in Greenwood....

Beginning on the north side of the North Western Turnpike Road thence running northern course with Buck Run road to the line of the N W Va. R R thence with the line of said Rail Road to the line of the Kelly and Dotson lots (sic), thence agreeable to the town plot of Greenwood a south course with the Kelly and Dotson line to the Foreman lot thence with the Foreman lot to a lot of A G Yeager, thence to T F Davis lot. thence running with said Davis lot to the North Western Turnpike, thence running with said road to the beginning supposed to contain four acres more or less and being the same property conveyed by Ephraim Bee to said Rachel J. Bee, said property is situated in the town of Greenwood Doddridge Countywarrant generally said property with all the improvements and appurtenances thereto belonging to the party of the second part...

Note: Same boundary description as in foregoing deed from Ephraim Bee to Rachel Bee (10, 164), but 'supposed' size has doubled from two acres to four acres more or less. Assessor's Land Book shows assessment of two acres to Bee (1870-1875), two acres to Simpson (1876-1877), two acres to E W Summers (1878-1881) then four acres to Joshua Wilson (1882-1884) and M. C. Young (1885-1899).

**GREENWOOD
LOTS**

Prior to 1853, John Dotson conveyed two of the eight lots, referenced above as having been reserved from within the boundaries of the Brick House Property, to Thomas D. Scott and his wife Jacinthia Dotson Scott; then in 1853 he sold five more of these lots to Jackson Dawson, Philip and John Lewellen, all adjoining and/or in the vicinity of the Scott lots.

A sketch (next page) showing the relative locations of these lots is titled "GREENWOOD LOT PLOT"; succession of ownership, as determined from deeds and Land Book records, is shown in summary form.

As may be seen, an unbroken succession of ownership has been established for one of the Scott lots (referred to in the 1872-1890 Land Books as Lot #2) down to the present (1987) owner of Parcel No. 17-0009 O. T. Wise; only partial searches for the other lots were made, but references to adjoining lot boundaries in the deeds confirm the location of the group as a whole. The succession of ownership of each of the original lots, as shown in the sketch, follows with boundary lines abstracted from the respective deed. For those readers not interested in the details of the tracing of the successive ownership of these Greenwood Lots, please skip to the end of this section on page 35; the significance of these lots is discussed in Chapter 6.

SCOTT LOTS**Two lots from John
Dotson to Thomas
Scott pre-1853**

For the two lots conveyed by John Dotson to Thomas Scott, no deeds of conveyance were found for the transfer of ownership from Dotson to Scott. However, two deeds were found with Thomas Scott the grantor, each referencing the John Dotson to Scott conveyance. Abstracts of these two deeds, and subsequent dispositions, follow:

Lot No. 2 (John Dotson to Thos. Scott, pre-1853)

CHAPTER SIX

Discussion of Grants and Deeds

RICHARD DOTSON LAND GRANTS

600 Acre Tract

First, let me state my conclusions about the identification of Richard Dotson's 600 acre tract that he entered on coming to this area in the early 1800's - then discuss the reasons for arriving at this conclusion.

It is my conclusion that the 600 acres referred to in Hardesty's History were the two 300 acre parcels on a drain of Hughes River, both being warranted originally to William Lowther as part of a 1000 acre grant, then assigned to Isaac Pryon by the Commonwealth of Virginia Treas. Warrant 2721 issued in 1787. In 1804, one was then granted directly to Richard Dotson as an assignee of Pryon; the other was granted in Pryon's name. Both tracts were surveyed concurrently in 1803 with cross-references to each other's boundary lines, with a reference to William Lowther as the original grantee of a Treas. Warrant for 1000 acres in 1787.

First Land Purchased from Joseph Spencer 250 acres in 1801

Richard acquired other land by grant and deed; let us first examine these other acquisitions and eliminate them as being unsuitable candidates for the referenced "600 acres entered". His earliest was a purchase in 1801 of 250 acres in the Toll Gate area from Joseph Spencer for \$250; less than two years later he sold this land to James Marsh in 1803 for \$500, thus doubling his investment. It appears that this was strictly a good business deal.. It just doesn't fit the required description in combination with any other acquisition either in total acreage or time-wise.. It seems unlikely that he would have built his cabin on this land and then sell it such a short time later.

**Grant for one-half of
200 Acres-1817**

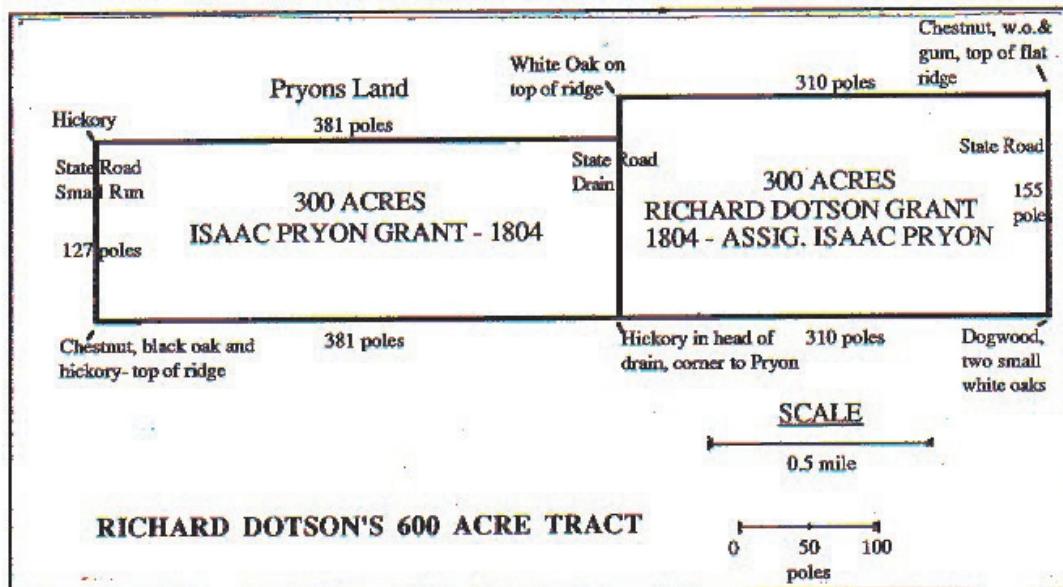

Richard Dotson's next grant (after the 600 acres with Pryon in 1804) was not until 13 years later in 1817, when he was granted half of a 200 acre tract in Wood Co., adjoining Hugh Ferguson and Emanuel Dotson, as an assignee of and with a Hedgman Triplett. In 1830, he sold one-hundred acres of this tract to John Griggs for \$10; then in 1838 sold the remaining half lying on the east side, then in Tyler County, to his son Zachariah Dotson for \$50. We have no indication that Richard ever resided on this tract, but much later, one of his younger sons Elisha did live here on the western half. In 1847, Wellington Duckworth became the owner of the eastern half.

**Acquired 300 acres
by deed from
Wm. Wells on
Hugle Run-1819**

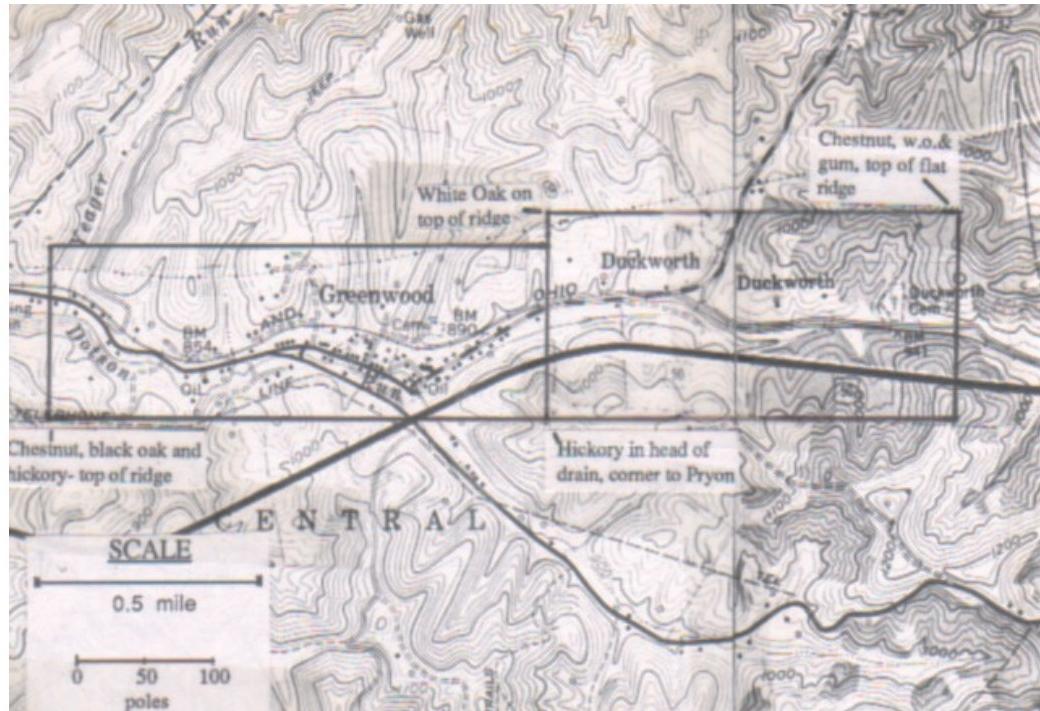

Later land acquisitions of Richard included: in 1819 purchased 300 acres on Hugle Run of Long Run of Arnold Creek from William Wells; in 1821 obtained a 50 acre grant adjacent to these 300 acres he purchased; also in 1821 he obtained a 100 acre grant in Wood County (now Ritchie) on a drain of another Long Run, a branch of the North Fork of Hughes River. All of these later acquisitions are much too late to fit the description of his original entry to 600 acres shortly after 1800.

600 Acre Grant

With the elimination of other possibilities, let us return to the two 300 acre warrants to Isaac Pryon, assignee of William Lowther, in 1787, resulting in grants in 1804, one to Pryon and one to Richard as Pryon's assignee. From the boundary descriptions of the surveys of 4 July 1803, a plot of these two parcels has been made:

Further, the approximate location of the two tracts has been placed on the topographic map of this area (scale 1:24000) its location identified by the permanent features referenced in the boundary descriptions of the grants. As may be seen, the overlaid plot of the two 300 acre tracts extends on both sides of Dotson Run from about the Duckworth Cemetery on the east to the divide between Yeager and Sugar Runs on the west. The town of Greenwood lays within the boundaries of the western 300 acre tract.

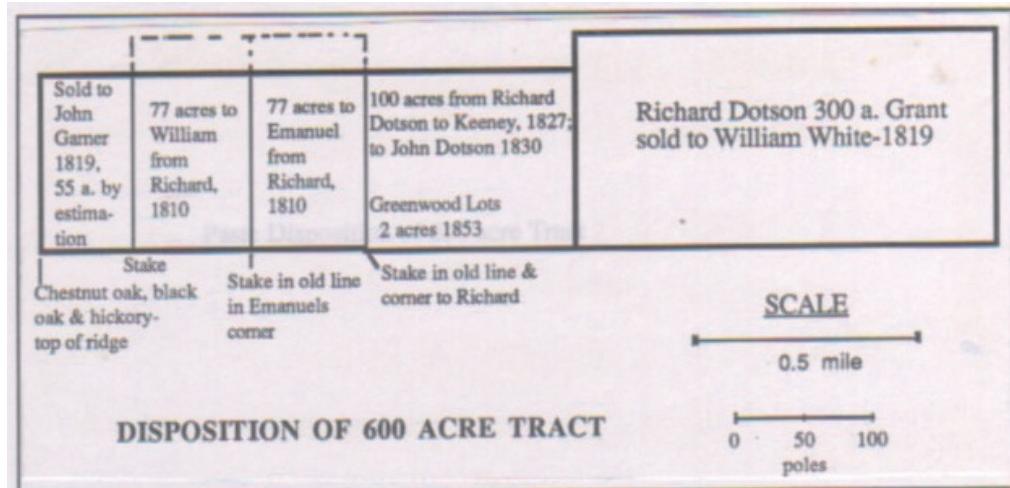

Location of Richard Dotson's 600 acre Tract

**Disposition of
Richard's 600 acre
Tract**

Richard disposed of the 600 acres as follows, all in Wood County:

- 1810 Bk. 4 p.370; 77 a. to his son Emanuel Dotson
 - 1810 Bk. 4 p.353; 77 a. to his son William Dotson
 - 1819 Bk. 6 p. 10; 300 a. to William White
 - 1819 (Recorded 1826) Bk. 6 p. 628; 50 a. to John Garner
 - 1827 Bk. 7 p. 103; 100 a. to John Keeney
- Total land sold was 599 acres.

From descriptions contained in the foregoing deeds, plots of the tracts that Richard sold are shown overlaid on the previous plot of the two 300 acre grants. (next page)

Location proven to be on Dotson Run on the Northwestern Turnpike

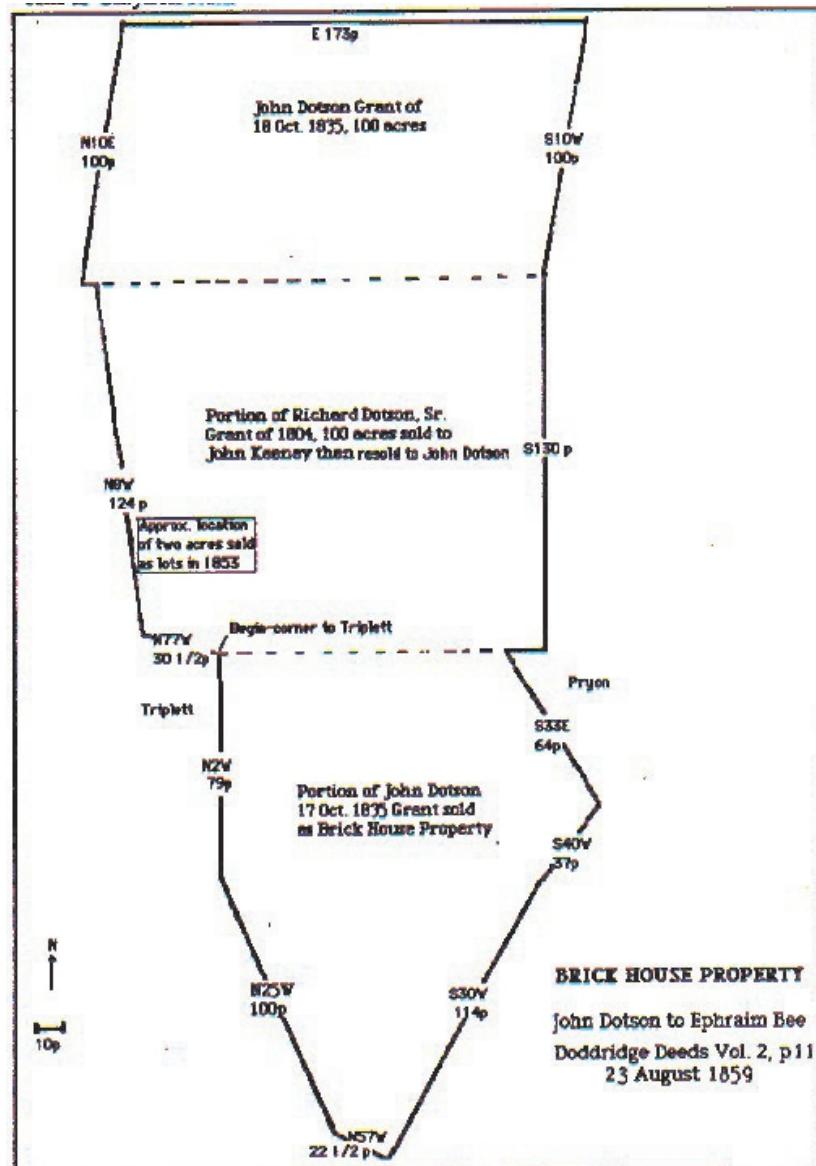

A full description of each of the above five tracts, and the disposition of each by Richard, has been recorded in a preceding section; subsequent dispositions have been tracked in some cases, which has provided additional information concerning the location of the original tracts. For example, from information disclosed in Richard's deed for the 55 acres to John Garner (1819), and subsequent deeds from Garner to Willis (1843) and Willis to Brown (1845), it has been proven that the location of Richard Dotson's 600 acres was on Dotson Run on the Northwestern Turnpike. In 1819, Richard's deed to John Garner identifies the 55 acres as "a part of 300 acre tract now occupied by Richard Dotson"; in Garner's deed to Notley Willis (1843), it was identified as the tract conveyed from Richard Dotson to John Garner and....situate...being on both sides of the Northwestern Turnpike; and the subsequent deed from Willis to Brown for two tracts of 55 acres and 56 acres adjoining each other, the 55 acre parcel was identified as calling for the Dotson to Garner boundaries and located on both sides of the Northwestern Turnpike road; the adjoining 56 acre parcel (patented to Willis) was located as being "on Dotson Run and on the Pike".

Brick House Property

In his deed to John Keeney in 1827 for the residual 100 acres of the western 300 acre grant, this 100 acre tract was identified as being located on the state road and "being the same on which Richard Dotson heretofore resided"; in 1830 this 100 acre parcel was sold by Keeney to John Dotson (son of William, grand-son of Richard) who became a prominent land broker in Doddridge County.. The major part of the 100 acre plot was sold as part of a 330 acre tract to Ephraim Bee (Dodd. Deeds Bk. 4,p. 11, Aug. 24, 1859)and to A. G. Smith Heirs (Bk 4, p.170 Dec 7, 1860) , and known as "the Brick House Property". From the boundary description of the Ephraim Bee deed (4, 11) a plot of the Brick House Property has been made and successfully closed. From this plot, an outline of the 100 acre tract acquired by John Dotson from his grand-father Richard Dotson, Sr. via John Keeney, can readily be seen in the middle, with allowances made for survey refinements; on the north lies John's 100 acre grant of 18 Oct. 1835 in its entirety with boundary descriptions matching exactly; on the south in

the Sugar Camp Run area, only a portion of his 289 acre grant of 17 Oct. 1835 was sold to Bee and the Smith heirs; again the pertinent boundaries of the deed and grant matched perfectly. Note: Sugar Camp Run (a name no longer used and not to be confused with Sugar Run) is a south-eastward lying branch of Dotson Run, with its mouth at Greenwood; the Northwestern Turnpike (later old US 50) followed Sugar Camp Run from Greenwood for about a mile, before turning eastward across the Greenwood Hill to Claylick Run.

100 Acres of Richard Dotson Grant part of Brick House Property

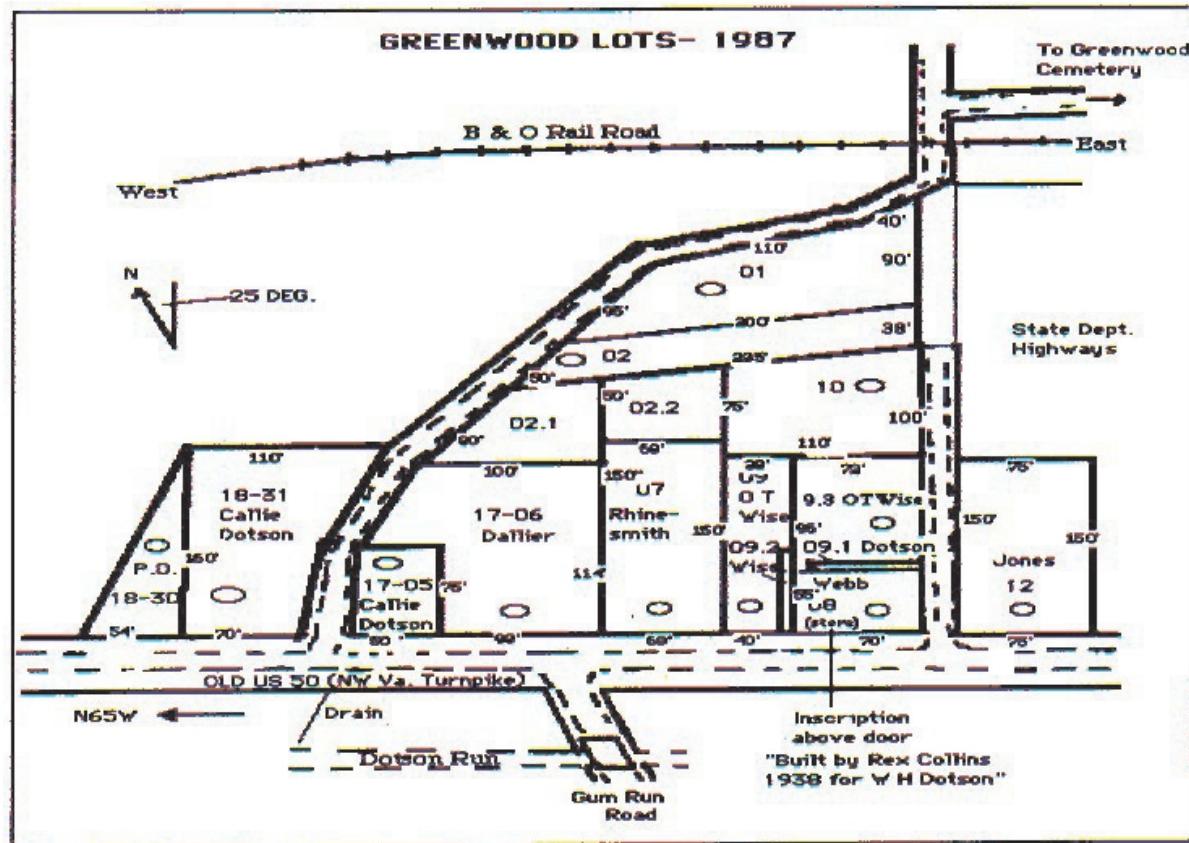

Greenwood Lots

However prior to the foregoing sale of the "Brick House Property", a two acre portion of it had been sub-divided into eight or nine lots and sold to Thomas Scott (2 lots), Jackson Dawson (5 lots), and others. These lots were located in the village of Fairview or Grandview, now Greenwood, along the north side of the Northwestern Turnpike and "west of the Brick House". This information is of particular interest because Hardesty's history written in 1881, states that the location of Richard Dotson's cabin was "near where Thomas Scott now lives". It follows that fixing the location of Thomas Scott's lots would in turn fix the location of the cabin that Richard Dotson built on his arrival in this area.

Details of the transactions entailed in this search are contained in a preceding section under "Greenwood Lots". From common boundary descriptions cited in the many deeds and surveys related to these lots, the relative locations of these lots one to another was determined and shown in the "Greenwood Lot Plot"; as expected, some discrepancies existed in boundary descriptions, which as used at that time were not very exact; known ownership transfers were also included. For one of the Scott lots (Lot #2), an unbroken succession of ownership was established down to the present owner (1987) of O T Wise, parcel 17-0009. The location of these lots has therefore been established as lying on the north side of old Rt. 50, immediately east of its intersection with the road leading to the Greenwood Cemetery (Rt No. 36/6). A plot of this section of Greenwood, with current owners, is shown here as "GREENWOOD LOTS-1987". 1987 photographs of this section (looking northward from the access road to new corridor Rt. 50) are also shown.

The conclusion remains that, undoubtedly, the 600 acres Richard Dotson entered shortly after 1800 was comprised of the two 300 acre grants (one to Richard Dotson and one to Pryon); and that the location of this land was on the Northwestern

**Disputed Ownership
of Western 300 Acres**

Turnpike on Dotson Run and included the present town of Greenwood.

A question still remains as to how he acquired the second 300 acre grant from Pryon, and the nature of his relationship with Pryon in the first place. His acquisition of the second (western) 300 acre grant was evidently not officially recorded anywhere. Without further research, one can only speculate. Perhaps by an unrecorded purchase from Pryon via title bond, or through abandonment by Pryon. As detailed in the preceding section (Chapter 2), the claim to ownership of this 300 acres was challenged by Hugh Ferguson in 1815, and was awarded to Ferguson by the Wood County Court in 1818 through a default by Pryon; Ferguson then sold it to William White, Jr in 1818 through his attorney Levi Wells; White then resold it to Wells by deed dated 1819 but the deed was not recorded until 1846 --27 years later; no subsequent deed was found with Wells as the grantor. However in 1853 Ephraim Bee lay claim to this western 300 acre tract on the basis of delinquent taxes for the years 1847, 1848 and 1849 by the Levi Wells Heirs. As detailed in a preceding section, he had this 300 acre tract surveyed, and was awarded a deed by the Clerk of the County Court on 1 Sept. 1853. His claim to this tract, however, now owned by William Dotson, John Dotson, William Brown and others apparently did not hold; he subsequently ended up buying a portion of this property, (ca. 100 acres) as a one-half interest in the "Brick House Property" in 1859; the remaining half interest in the Brick House Property was sold by John Dotson to the A J Smith heirs in 1860.

Disposition of Tract

Back earlier, ignoring the challenge by Hugh Ferguson for title to the western 300 acre tract, Richard evidently retained ownership; he deeded 77 acres to each of his two sons William and Emanuel in 1810; the boundaries of these two deeds exceeded the dimension of the grant in one direction by some 24 poles. His deed to John Keeney for the residual 100 acres in 1827, in referring to his patent from the Commonwealth, omitted the date thereof, and also contained a disclaimer of liability for any possible defect in the title to the land; lack of an entirely clear title is thus indicated. A similar situation existed in Richard's co-ownership of 200 acres with Hedgman Triplett in 1817, having been granted one half, but selling the entire 200 acres- 100 to John Griggs in 1819 and the second 100 to his son Zachariah Dotson in 1838.

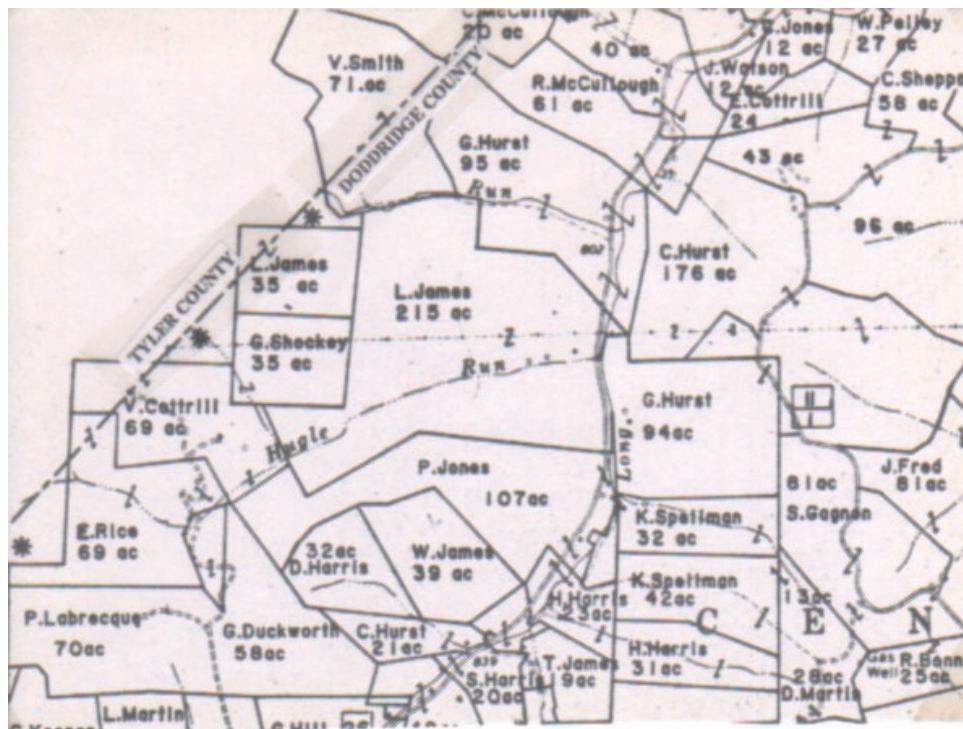

**Residing in Wood
County in 1820, then
Moved to Tyler after
1820**

Wording in his deed to John Garner, written 29 June 1819, suggests that he was still residing at that time on his remaining 100 acre plot on Dotson's run (later Greenwood). This information is corroborated by the 1820 census, in which he was shown as living in Wood County. He moved shortly thereafter to Tyler County.

Hugle Run Tract

His first and major acquisition of land in Tyler was the purchase of 300 acres from William Wells on Long Run of Arnolds Creek; he immediately resold 70 acres of this land to his son James. The location of this tract has been established as laying on Hugle Run, a stream which was named for the William Hugill to whom Richard (with wife Naomi) sold the remaining 230 acres of this tract in 1825. As may be seen on a topographical map of this area, Hugle Run is a westward lying branch of Long Run, which tops out on the east side of the dividing ridge opposite Buck Run on the west. As shown in the preceding section,

the succession of ownership of the 70 acre tract sold to his son James in 1819, has been traced as follows; 1835, James and Lucinda (of Tyler) to Zacheriah (Tyler); 1837 Zacheriah and Eliz (Tyler) to Joshua Bartlett (Wood); 1865 (Dodd. deed) Joshua and Matilda Bartlett (Doddridge) to Mortimore Bartlett (Ritchie). The trail subsequent to Mortimore Bartlett became too murky to follow directly from the deed information at hand. It is believed to lead to the 1982 ownership of this 70 acre plot to be L. James and G. Shockey with 35 acres each; this is indicated from identical boundary dimensions and orientation of the combined tract of these present day owners to that of the 70 acres traced to Mortimore Bartlett in 1865. It lies on Hugle Run with the present day Doddridge-Tyler line cutting through the northwest corner of the L James tract.

Ownership of Land in Hugle Run-Long Run Area of Doddridge Co--1982

Most of the remainder of the 300 acre tract purchased by Richard (230 acres) is believed to be owned also by Lawrence James, being 215 acres adjoining the aforementioned 70 acres; but this has not been traced conclusively. However, the location of the 70 acre tract has been established conclusively as being on Hugle run. In a deed from Asa Harris and wife Nancy, to John H. Harris (Dodd. Deeds 6, 107; 1 March 1866) for 98 Acres on the waters of Hugle Run, reference

was made to common boundary lines with Joshua Bartlett. This was for two corners "viz. to a rock, corner of Joshua Bartlett, S88E 72 poles to a maple, N2E 133 poles to a white oak corner to Eliza Powell"; this corresponds to the boundary description in the referenced deed to Joshua Bartlett (in reverse direction) to "a white oak, south one hundred and thirty poles to a maple thence West eighty six poles to two dogwoods". One other line in the Harris deed calls for a corner "extending to the mouth of Hugal Run". The Harris to Harris deed has been transcribed in a preceding section. It is believed that the 98 acre Harris deed was part of the 230 acre tract sold by Richard to William Hugill. But the foregoing shows conclusively that the 300 acre deed from Wells to Richard Dotson was on Hugle Run, an eastward branch of Long Run.

**Move to Tyler after
1820**

That Richard moved to Tyler, not just purchased land in Tyler, is shown by several entries in the Tyler County records. From Tyler County Court Minutes and Order Book 1815-1840, the following entries mentioned Richard Dotson:

Jan. 1823-Richard Dotson served on jury
 Oct. 1823-appointed to appraise personal property of Geo. Gregg, dec'd.
 Nov. 1823-member of Grand Jury
 Dec. 1823-March 1824-Plaintiff in suit against John Stead and
 Thos Ingraham
 June 1824-member of Grand Jury
 June 1824-settlement of county claims -granted \$2.50 for "team impressed on highway"

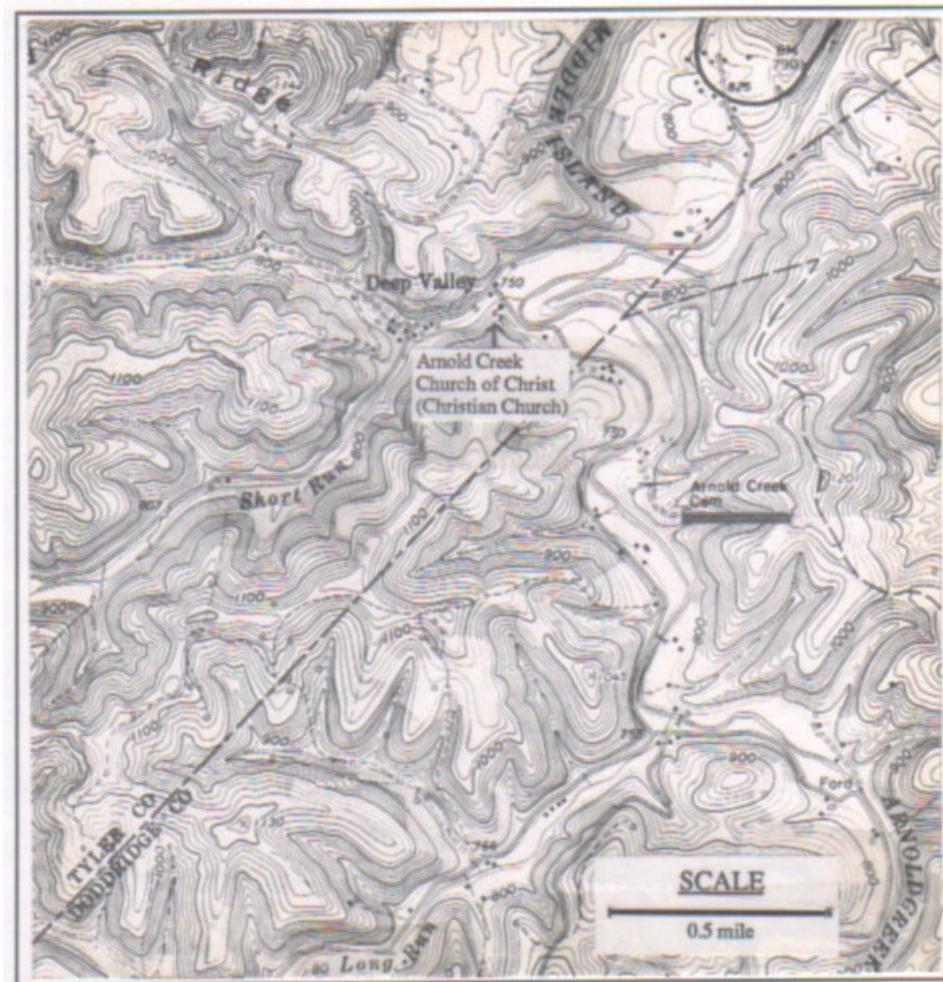

It has not been established exactly where in then Tyler that Richard and Naomi moved to; it may have been the 230 acre tract on Hugle Run, or possibly to the 57 acre tract at the JUG, in which a lifetime interest was willed to Naomi by her deceased former husband George Gregg, the miller.

**Fifty acre grant to
Richard on Hugle
Run, 1821**

In 1821, Richard was granted a 50 acre tract adjacent to William Wells; this puts the location of this 50 acres in the vicinity of the 300 acres he purchased from William Wells, the latter being half of the original 600 acre William Wells grant. In 1822, Richard (of Tyler County) sold this land to a Robert Patrick. While Richard's grant was apparently a bona fide grant, he non-the-less included an article of agreement whereby Patrick would not bring suit against him in the event of an eviction of Patrick by reason of a possible older title to the land. As recorded in a preceding section, succession of ownership of this 50 acre tract was followed through Patrick to James Dotson, to Samuel Jones, to David Hickman (in 1844)—all in Tyler County.

We have found no record of Richard having acquired any more land after the foregoing grant in 1821; in contrast, he began selling off his previous acquisitions. His deed in 1825 to William Hugill was the last found in which his wife Naomi was a co-signer (both by mark). After this, he apparently moved in with one or another of his sons; the 1830 US census shows a male, age 70-80, living with Joseph Dotson in Tyler County; also it shows a male, age 70-80, living with Elisha Dotson in Wood County. It seems likely that Richard was the one living with his son Joseph in Tyler; or it's possible that he was enumerated both places. In the 1840 census, he was identified by name, as a Revolutionary War pensioner, age 88, living with his son James Dotson in Tyler. In his application for his pension, filed in Tyler County in 1833, he stated that since moving to Wood County, "he has continued to reside alternately in Wood and Tyler Counties until

the present time and that he now lives in said County of Tyler". Finally, in 1847, contained in a affidavit for receipt of his pension (Ref. 2 Barr Wilson), he stated "That he now resides in Doddridge County, Va. and has resided there for the space of two years past, and that previous thereto he resided in Tyler County, State of Virginia." Signed by Richard by mark, and witnessed by Samuel Archibald (J P) and James Dotson. From land holdings of James Dotson at the forks of Short Run and Arnold Creek (he deeded a one acre lot to the Arnold Creek Church of Christ in 1844 Tyler Deeds 9, 419), it appears that no physical move was made by Richard from Tyler to Doddridge but that the county lines changed on the formation of Doddridge County in 1845 (see maps in previous section on County Formation). Richard died in 1847 at the age of 95 years and is buried in a marked grave in the Arnold Creek Cemetery; the location of this cemetery and that of the Arnold Creek Church of Christ (Arnold Creek Christian Church) is indicated on the topographical map of this area.

**WILLIAM
DOTSON'S
LAND**

As shown in the plot of Richard Dotson's division of his western 300 acre tract on Dotson Run, William Dotson's first land was the 77 acre tract sold to him (for one dollar) in 1810 by his father; the location was on the western side of the present town of Greenwood. Deeds and census records indicate that he continued to live in this area until his death in 1865. He acquired other land by deed and grant in the Dotson Run and Cabin run areas. Most of his land went to his son William B and grand-son Hiram S., or to the Ellifritt family; details of these transactions are recorded in a preceding section. It is interesting to note that Hardesty (loc cite) states that William B Dotson built his tread-mill near the site of the Greenwood railroad station; this site is on land deeded to Emanuel Sr. by his father Richard, then sold by Emanuel Sr. to his brother William.

**EMANUEL
DOTSON'S
LAND**

Emanuel also received a 77 acre plot from his father Richard in 1810 in the present town of Greenwood, adjacent to and eastward of William's 77 acres. In the 1810 US census, all three Dotsons, Richard, William and Emanuel were enumerated in Wood County. In 1820, Richard and William were in Wood, but Emanuel was in Tyler; a move by Emanuel between 1810 and 1820 is thus indicated.

Emanuel's first land grant was issued in Wood County in 1815 for a 100 acre tract on the State Road and on the dividing ridge between the waters of Arnolds Creek and Hughes River. The location of this tract has been fixed by Barr Wilson as lying at the head of Wilhelm run on the eastern part of Duckworth summit; successive owners of this tract were: 1831 Manuel Dotson and Mary (of Harrison) to Manual Dotson 2nd (Wood) "situate in Wood"; 1843 Ritchie Deed, Manual Dotson Jr. and Hannah, to Zachariah Dotson "situate on the dividing ridge between the waters of Arnolds Creek and Hughes River part in Tyler and part in Ritchie"; 1847 Doddridge Deed Zachariah Dotson and Eliza to Henry Duckworth; 1891 Doddridge Deed Henry Duckworth to his wife, one of two tracts totaling 250 acres.

From the descriptions offered in these deeds, the location of this 100 acre tract was on the dividing line between Wood and Tyler in 1820; the deed in 1843 should be noted particularly giving the location as situate..."part in Tyler and part in Ritchie". It should be noted that on the formation of Ritchie in Feb. 1843, the dividing line between Tyler and Ritchie in this area followed the former line between Tyler and Wood. The significance is that while his grant was issued in Wood in 1815, Emanuel may have been living on this one-hundred acre tract in 1820 and still have been enumerated as a resident of Tyler, which he was.

Emanuel's other land grants were on Buck Run, 1818 and 1820, in three separate grants with all tracts adjacent to each other; total of the three was 200 acres. We have no evidence or indication that Emanuel ever resided here on Buck Run, although his widow Mary (Aunt Polly) did so in later years. Sometime between 1820 and 1830 he moved to Harrison County, as evidenced by his appearing in the 1830 Harrison census. We have found no deed or grant for land in Harrison County for Emanuel, consequently no strong indication therefrom concerning the location of his residence in Harrison. We suspect that it was on Arnold Creek, perhaps the left hand fork, which was in Harrison at that time. Then by two Wood County deeds dated 21 Oct. 1832 Emanuel sold all of

his remaining land. Each deed gave his and wife Mary's residence as Harrison County, still further proof of his residing in that county. His first 77 acres in Greenwood, adjacent to his brother William's 77 acres were sold to William; his 200 acres on Buck Run went to his brother Thomas. Portions of this Buck Run land were later owned at one time or another by Emanuel's daughter Mary Gregg (wife of Elzy), his son Robert, and his brother James; references were made in these deeds to Emanuel's patents or surveys of 1818-1820. No additional deeds or grants were found involving Emanuel after 1832; this, plus his absence in the 1840 census indicates that he died sometime before 1840.

**Joseph Dotson grant
on Wilhelm Creek
adjacent to Emanuel
Dotson 100 acre grant**

Another of Richard Dotson's sons Joseph was granted 150 acres on Wilhelm Run in 1838, then in Tyler County; it had a common line on the west with Emanuel Dotson's 100 acre grant of 1815. Joseph sold his 150 acres to Ephraim Bee in 1840, who then resold it to Henry Duckworth in 1843. In the latter deed reference was

made to a common line with Zachariah Dotson, who by that time had acquired the 100 acre Emanuel Dotson tract; boundary lines were also revised. In 1847, Henry Duckworth also acquired the 100 acre tract from Zachariah Dotson; the combined 250 acre tract remained in the Duckworth family for many years; at least until after 1891.

**Zachariah Dotson-
sold 3 acres of tract
on Wilhelm Creek
on which he lived
as rail-road
right-of-way**

Zachariah and Eliza Dotson's deed for a three acre right of way for the Northwestern Virginia Rail Road (later the B & O) in 1854 on Cains run of Willms (Wilhelm) Creek, shows the general location of his residence at that time(Dodd. Deeds, Vol. 2, p. 426). Cains Run has not been located on any modern map. It is interesting to see the importance of protection for his well from the encroachment of the rail-road embankment. It is also somewhat ironic that some 135 years later, this right-of-way has been abandoned and the rails are being removed. The deed in 1865 for 146 acres on Willms Creek near Central Station from six of Zachariah's heirs to two others (Charles and Garrison) is assumed to be the same tract on which Zachariah also lived in 1854. It identifies the tract as having been acquired from Thomas Scott.

Hugle Run Deeds

The Hugle Run deeds have been included because of their proximity to Richard Dotson's 300 acre tract by deed from William Wells in 1819. Part of the George Thomas land may have been part of the 300 acre tract.

Zachariah Dotson's grant in 1821 for 200 acres on Long Run (Hugle Run) called for a common boundary to William Wells; this tract was sold in 1831 to James Jones and Samuel Jones. James Jones was a Revolutionary War soldier, married to a Sarah Ravenscraft. The author is a descendent of James Jones via their daughter Sarah Ellen who married Elias Coleman Richards; their daughter Kesiah Ruth who married James Sanford Elder; their daughter Sarah Ann who married Charles Wesley Dotson; their son Erman Ray Dotson, the author's father. (Ref. Barr Wilson *James Jones and Sarah Ravenscraft*)

APPENDIX

DOTSON LAND GRANTS
Issued in the counties of Wood, Tyler, Harrison, Ritchie and Doddridge

This appendix contains transcriptions of all of the Dotson land grants lying within the present day counties of Ritchie, Doddridge and Tyler; however, when issued, the land lay within the counties of Wood, Tyler, Harrison , Ritchie, and Doddridge and so arranged here. Within each county, an alphabetical index of grantees is provided according to Sims (Sims, Edgar B.,State Auditor, *Sims Index to Land Grants in West Virginia*, State of West Virginia, Charleston, West Virginia, 1952). Within each county, transcriptions of the actual grants are arranged by the date issued.

Except for one grant as noted, all were issued by the governor of the Commonwealth of Virginia. A few grants, other than to a Dotson, are listed when such grants provide reference to a common boundary line in a Dotson grant or of interest otherwise.
